

Research grant applicants often do not have visibility into the status of grant applications once they are submitted to federal agencies. To find status information many applicants must call or submit requests, and it can take time to receive a response. The goal of **Research.gov's Grants Application Status** service is to provide transparency into the grant-making process by offering a single, electronic location where applicants can quickly and easily check up-to-date application status information for multiple agencies.

Grants Application Status allows Sponsored Projects Offices (SPOs) and Principal Investigators (PIs) to check the status of grant applications submitted to the National Science Foundation (NSF) and the Department of Agriculture's National Institute of Food and Agriculture (USDA/NIFA).

Powering Knowledge and Innovation

Grants Application Status displays all applications submitted to:

- NSF via Grants.gov or FastLane
- USDA/NIFA via Grants.gov since October 2006

This online service allows users to view the status of all grant applications for their organizations submitted to participating agencies. With Grants Application Status you can:

- Check on the status of applications as agencies receive and review them
- View a consolidated list of grant applications submitted to NSF and USDA/NIFA
- View detailed application status history from submission to review to decision
- Maintain a single Log-in ID to view applications at both agencies
- Search and sort applications by multiple fields (e.g., agency, tracking number, and received date)
- View panel reviews (if applicable and a PI on the grant application)

“ I like it very much. The fact that I am able to see every grant and the status instantly is fantastic. Often times trying to find the status is a real headache. ”

*– University of Alabama
at Birmingham User*

How Grants Application Status helps you:

- Simplifies access to grant application status information
- Provides a single location for checking the grant application status for both agencies
- Facilitates timely communications between applicants and agencies (NSF and USDA/NIFA)
- Helps grantees manage their grant portfolios

Application Detail

Agency Information

Agency Name: National Science Foundation

Application Information

Agency Tracking Number: 0718308

Grants.gov Tracking ID: Donec nunc at urna. Et a

Descriptive Title of Project: 01/11/2007

Received Date: Jane Bauer

DOI#: Sharon Crook

co-DOI(s)/co-PI(s): Christian Ringhofer

Authorized Representative: Carl Gardner

Legal Name: Test Rep

Project/Performance Site: Arizona State University

Program Information

Program Title: Mathematical Biology

Program Code: 7334

CFDA Number:

CFDA Title:

Funding Opportunity Number: PD 04-7334

Division/Area of Science: Division of Mathematical Sciences

Program Contact Name: Mary Ann Horn
